Head of Product and co-founder of Rehabilia Technologies, with 5+ years of applied research at CNR-STIIMA. I gather requirements from stakeholders, map how work is actually done, weigh trade-offs and turn them into decisions a team can act on. I run quantitative and qualitative studies, analyse the data in Python and Excel, and write the results up as reports, specs, protocols and papers. I use Claude and Claude Code daily to draft, analyse and structure documents.

Work Experience

Head of Product (Co-Founder), Rehabilia Technologies s.r.l., Milan
May 2023 – Present

- Gather requirements through interviews with clinicians, patients and partners, map how the work is done today, and write it up as requirements and specs for engineering.
- Weigh trade-offs on a backlog that is always larger than capacity, using study data and user feedback to decide what enters each release and to explain in writing what waits.
- Run ongoing research with clinics and education centres on their needs, tools and purchasing decisions; worked on the business and financial plan in the EIT Health MedTech and EIT Wildcards bootcamps.
- Align engineers, clinicians and research partners and follow each release to validation: PhiCube reached SUS 85.8/100 with 19 children and is in two ongoing multicentric studies with 134 patients.

`Requirements • Stakeholder Interviews • Trade-offs • Business Plan • Asana`

R&D Product Engineer, STIIMA, Lecco
Feb 2021 – Present

- Designed quantitative and qualitative study protocols (questionnaires, usability tests, interviews) for clinics and labs, from study design to data collection.
- Ran studies with 16 blind participants (OmniTrack) and with children with cerebral palsy (Giocabile, pilot study in the *Italian Journal of Pediatrics*).
- Analysed questionnaire, usage and performance data in Python (pandas) and Excel, and reported findings in reports, papers and presentations for clinical and research teams.
- Turned MDR, ISO 13485 and IEC 60601 requirements into design inputs and contributed to CE-oriented documentation (technical files, manuals, design dossiers) within Fit4MedRob.

`Study Design • Data Analysis • Python • Excel • Technical Writing`

Selected Projects

GIT_1
GIT_2
GIT_3

OmniTrack / OmniAnalytics: internal data tool for a research team /Frontiers

- Designed OmniAnalytics, a data tool that turns raw session recordings from 16 blind participants into standard trial metrics: route similarity, speed and target discovery.
- Designed correction flows with full traceability: corrections, exclusions and annotations are stored separately, so raw records are never modified.

`Python` • `MongoDB` • `Data Model` • `Git`

WEB

PhiCube: reconfigurable bilateral robotic device for neurorehabilitation /Frontiers

- Took a medical device from user research to deployment in clinics, balancing user needs, engineering constraints and regulatory requirements; co-inventor on the patent.

`Requirements` • `Usability` • `Regulated Product` • `Patent`

Education

2023–27 **PhD, Mechanics and Advanced Engineering Sciences** *Bologna University, IT*

PhD Candidate, expected March 2027. Topic: IoT-based Multimodal Navigation – OmniTrack

- Research Mobility, Utrecht University, NLD: Sensory navigation and experimental psychology.
- Research Mobility, Toyo University, JP: Feedback algorithm and behaviour analysis.

2017–20 **MSc, Design & Engineering** *Politecnico di Milano, IT*

Topic: UX development of an ultrasonic dental device: from concept to validation: WashB

- Research Mobility, Chiba University, JP: UX research studies for Fujitsu and Panasonic.

2012–15 **BSc, Industrial Design** *Florence University, IT*

Topics: Foundation in research methodologies, development, and critical thinking.

Skills

Analysis	Requirements, stakeholder interviews, process mapping, trade-offs, prioritisation
Research	Study design, interviews, usability testing, questionnaires (SUS), synthesis
Data	Excel, Python (pandas, Jupyter), MongoDB, Git
Writing	Reports, specs, protocols, technical documentation, papers, LaTeX, Claude

Certifications

2026 **Claude 101 Badge — Claude Code Badge — Claude** *Anthropic, Online*

Selected Publication

2024 Consales, A., . . . , Tauro, G., . . . **Inclusivity is child's play: pilot study on usability, acceptability and user experience of a sensory-motor PC game for children with cerebral palsy (GiocAbile).** *Italian Journal of Pediatrics*. Link
