Giovanni Tauro

Experience Designer | UX for Complex, AI-enabled Systems

Bari-Lecco, Italy +39 3279437161 giovanni.taurodi@gmail.com
LinkedIn GitHub Scholar Portfolio GrabCAD

Experience Designer and Design Engineer with 5+ years turning complex technical systems into experiences non-experts can trust and use, at CNR-STIIMA and as Head of Product of Rehabilia Technologies. I lead from user research and journey mapping to flows, wireframes and coded prototypes (React, Python), with a focus on accessibility and AI-assisted design.

Work Experience

Head of Product (Co-Founder), Rehabilia Technologies s.r.l., Milan
May 2023 – Present

- Lead product and experience design end to end, from customer discovery and user research to journey maps, flows, prototypes and delivery of rehabilitation technologies.
- Turn ambiguous clinical and technical requirements into simple flows that hide complexity.
- Align engineering, clinical and business stakeholders on product logic, priorities and trade-offs.
- Validate design decisions through usability testing and interviews: PhiCube reached SUS 85.8/100 with 19 children and is in two multicentric studies (134 patients).

`Customer Discovery • Journey Mapping • Wireframing • Usability Testing • Figma`

R&D Product Engineer, STIIMA, Lecco
Feb 2021 – Present

- Designed the PhiCube user interface with Italian clinics to simplify hardware/software configuration, defining requirements through user-centred design (Fit4MedRob).
- Designed accessible interfaces and a game for children with cerebral palsy (Giocabile), and co-authored research on socially interactive AI agents.
- Mapped system states, feedback logic and interactions across devices for multimodal IoT platforms, making them clear to clinical and research teams.
- Designed evaluation protocols assessing usability, performance and interaction in experiments.

`Interaction Design • Accessibility • Systems Mapping • Figma • Python`

Selected Projects

GIT_1
GIT_2
GIT_3

OmniTrack: IoT-based Multimodal Navigation System /Frontiers

- Designed and built OmniAnalytics, a data-heavy web dashboard for researchers (React, FastAPI): session browsing, synchronized time-series charts, trajectory playback, comparison tables, and governed data-correction flows that never alter raw records.
- Designed the end-to-end experience and its accessible audio and haptic feedback, validated with 16 blind participants.

`React • TypeScript • Python • FastAPI • Dashboard • ROS2 • ESP32 • Sensors`

WEB

PhiCube: reconfigurable bilateral robotic device for neurorehabilitation /Frontiers

- Designed a modular rehabilitation device combining UX research, mechanical design, embedded systems, and multimodal interaction.
- Validated with 19 children (SUS 85.8/100); 134 patients in two on-going multicentric studies.

Education

2023–27 **PhD, Mechanics and Advanced Engineering Sciences** *Bologna University, IT*

PhD Candidate, expected 2027. Topic: IoT-based Multimodal Navigation System – OmniTrack
• Research Mobility, Utrecht University, NLD: Sensory navigation and experimental psychology.
• Research Mobility, Toyo University, JP: Feedback algorithm and behaviour analysis.

2017–20 **MSc, Design & Engineering** *Politecnico di Milano, IT*

Topic: UX development of an ultrasonic dental device: from concept to validation: WashB
• Research Mobility, Chiba University, JP: UX research studies for Fujitsu and Panasonic.

2012–15 **BSc, Industrial Design** *Florence University, IT*

Topics: Foundation in research methodologies, development, and critical thinking.

Skills

Design UX research, journey mapping, service design, wireframing, prototyping, Figma
AI AI-assisted prototyping, prompt engineering (Claude Code), TensorFlow Lite
Code React, TypeScript, Python (data analysis), FastAPI, C++, C#, Unity, Git

Courses & Certifications

2026 **Claude 101 Badge — Claude Code Badge — Claude** *Anthropic, Online*
2023 **Sketching with Hardware: Prototyping Tangible AI** *LMU Munich, DE*
2022 **Experimental Interaction Design** *Tallinn University, EE*

Selected Publication

2024 Arora, R., . . . , Tauro, G., . . . **Socially interactive agents for robotic neurorehabilitation training.** *Frontiers in Artificial Intelligence*. Link

Patent

2023 Malosio, M., Nicora, M. L., Redaelli, D., Tauro, G. WO2023214349A1 *Device for bilateral rehabilitation*.
