Giovanni Tauro

Head of Product | Discovery, UX & Rapid Prototyping

Bari-Lecco, Italy +39 3279437161 giovanni.taurodi@gmail.com
LinkedIn GitHub Scholar Portfolio GrabCAD

Head of Product and co-founder of Rehabilia Technologies, with 5+ years at CNR-STIIMA designing and prototyping products with clinicians, researchers and engineers. I take ideas from stakeholder interviews and problem framing to requirements, MVP scope and roadmaps, and make them tangible early, from Figma flows to AI-assisted prototypes (Claude, Claude Code) and working hardware, to test whether they are worth building.

Work Experience

Head of Product (Co-Founder), Rehabilia Technologies s.r.l., Milan
May 2023 – Present

- Own the product from discovery to delivery: stakeholder interviews, user research, problem framing and requirements for engineering.
- Scope prototypes and MVPs and keep a milestone-based roadmap, prioritised with clinicians, engineers, research partners and funders.
- Validate decisions with usability tests and study data: PhiCube reached SUS 85.8/100 with 19 children and is in two ongoing multicentric studies with 134 patients.
- Present the product to clinicians, partners and European support programmes (EIT Health bootcamps).

`Discovery • Requirements • MVP Scope • Roadmap • Prioritisation • Asana`

R&D Product Engineer, STIIMA, Lecco
Feb 2021 – Present

- Turned clinical and user needs into 3+ functional prototypes, from concept to experimental validation.
- Designed the PhiCube user interface with Italian clinics (Fit4MedRob) and a game for children with cerebral palsy (Giocabile).
- Mapped system states, feedback logic and interactions across devices, making complex systems clear to clinical and research teams.
- Designed evaluation protocols and analysed usability and interaction data to guide design decisions.

`Interaction Design • Prototyping • Systems Mapping • Usability Testing • Figma`

Selected Projects

GIT_1
GIT_2
GIT_3

OmniTrack: IoT-based Multimodal Navigation System /Frontiers

- Designed the experience and its audio and haptic feedback, tested with 16 blind participants.
- Designed OmniAnalytics, a data dashboard for researchers: session browsing, time-series charts, trajectory playback and traceable data-correction flows.

`UX • Prototyping • User Testing • Dashboard Design • Python • Sensors`

WEB

PhiCube: reconfigurable bilateral robotic device for neurorehabilitation /Frontiers

- Took a modular rehabilitation device from user research and prototypes to clinical use.
- Validated with 19 children (SUS 85.8/100); 134 patients in two on-going multicentric studies.

`UX • Interaction Design • Prototyping • Usability • Patent`

RehaBalloon: Interactive Platform

GIT

- Went from idea to a working proof of concept in 24 hours (LMU Munich "Hacking with Hardware" challenge): a low-cost rehabilitation device with pressure sensing, visual feedback and an on-device ML classifier.

`Rapid Prototyping • POC • Sensors • TensorFlow Lite`

Education

2023–27 **PhD, Mechanics and Advanced Engineering Sciences** *Bologna University, IT*

PhD Candidate, expected 2027. Topic: IoT-based Multimodal Navigation System – OmniTrack

- Research Mobility, Utrecht University, NLD: Sensory navigation and experimental psychology.
- Research Mobility, Toyo University, JP: Feedback algorithm and behaviour analysis.

2017–20 **MSc, Design & Engineering** *Politecnico di Milano, IT*

Topic: UX development of an ultrasonic dental device: from concept to validation: WashB

- Research Mobility, Chiba University, JP: UX research studies for Fujitsu and Panasonic.

2012–15 **BSc, Industrial Design** *Florence University, IT*

Topics: Foundation in research methodologies, development, and critical thinking.

Skills

Product	Discovery, interviews, problem framing, requirements, MVP scoping, roadmaps
Design	UX research, journey mapping, wireframing, prototyping, Figma, Adobe CC
AI	AI-assisted prototyping (Claude, Claude Code), Python (pandas), Git, Unity

Courses & Certifications

2026 **Claude 101 Badge — Claude Code Badge — Claude** *Anthropic, Online*

2023 **Sketching with Hardware: Prototyping Tangible AI** *LMU Munich, DE*

2022 **Experimental Interaction Design** *Tallinn University, EE*

Languages

Italian: Native English: Advanced (IELTS 2017) French: Basic (A2)
