# Giovanni Tauro

R&D Engineer | 3D Scanning, Reverse Engineering & CAD

Bari-Lecco, Italy +39 3279437161 giovanni.taurodi@gmail.com
LinkedIn GitHub Scholar Portfolio GrabCAD

R&D Engineer (BSc Industrial Design, MSc Design & Engineering) with 5+ years at CNR-STIIMA and as Head of Product of Rehabilia Technologies. I started in 3D scanning and reverse engineering, turning scan data into validated parametric CAD models for clients in several industries, and since then I have taken products from technical requirements and drawings to tested prototypes. I am used to explaining technical systems to clinicians, partners and conference audiences. Co-inventor of a patented rehabilitation device deployed in Italian clinics.

## Work Experience

**R&D Product Engineer**, STIIMA, Lecco
Feb 2021 – Present

- Translated clinical and user requirements into technical specifications and functional prototypes for rehabilitation and assistive devices.
- Designed, fabricated and assembled prototypes with SolidWorks, Fusion 360 and 3D printing, working from technical documentation, drawings and sketches.
- Designed test and evaluation protocols, analysed performance and usability data, and wrote CE-oriented technical files and manuals.
- Deployed PhiCube devices in Italian clinics (Fit4MedRob) and designed parametric 3D-printed accessories for children with cerebral palsy (Giocabile).

`SolidWorks • Fusion 360 • 3D Printing • Test Protocols • Data Analysis • Documentation`

**Head of Product (Co-Founder)**, Rehabilia Technologies s.r.l., Milan
May 2023 – Present

- Gather customer requirements from clinicians and partners and turn them into technical requirements, priorities and milestones for engineering.
- Coordinate third-party suppliers to resolve issues, track progress and meet project goals.
- Present the device to clinicians, partners and European support programmes (EIT Health bootcamps); PhiCube reached SUS 85.8/100 with 19 children and is in two multicentric studies with 134 patients.

`Customer Requirements • Suppliers • Presentations • Usability Testing`

**3D Scanning & Reverse Engineering (Freelance)**, Florence
Jan 2016 – Sep 2017, collaboration with DIMA3D

- Delivered end-to-end reverse engineering workflows for medtech, automotive and extreme-sports clients, converting 3D scan data into validated parametric CAD models and production-ready assets.

`3D Scanning • Reverse Engineering • Geomagic • SolidWorks • Manufacturing Prep`

## Selected Projects

**PhiCube: reconfigurable bilateral robotic device for neurorehabilitation /Frontiers**

WEB

- Co-designed a modular device from user research to mechanical design, assembly and clinical use.
- Validated with 19 children (SUS 85.8/100); 134 patients in two on-going multicentric studies.

`CAD` • `Mechanical Design` • `Prototyping` • `Assembly` • `Patent`

## Education

2023–27 **PhD, Mechanics and Advanced Engineering Sciences** *Bologna University, IT*

PhD Candidate, expected 2027. Topic: IoT-based Multimodal Navigation System – OmniTrack
- Research Mobility, Utrecht University, NLD: Sensory navigation and experimental psychology.
- Research Mobility, Toyo University, JP: Feedback algorithm and behaviour analysis.

2017–20 **MSc, Design & Engineering** *Politecnico di Milano, IT*

Topic: UX development of an ultrasonic dental device: from concept to validation: WashB
- Research Mobility, Chiba University, JP: UX research studies for Fujitsu and Panasonic.

2012–15 **BSc, Industrial Design** *Florence University, IT*

Topics: Foundation in research methodologies, development, and critical thinking.

## Skills

CAD 3D scanning, reverse engineering, Geomagic, SolidWorks, Fusion 360, OnShape, Abaqus

Build Technical drawings, 3D printing (FDM), assembly, test protocols, Python (pandas)

Customer Requirements analysis, technical presentations, documentation (ISO 13485 / IEC 60601)

## Courses & Certifications

2023 **Sketching with Hardware: Prototyping Tangible AI** *LMU Munich, DE*

2022 **Experimental Interaction Design** *Tallinn University, EE*

## Patent

2023 Malosio, M., Nicora, M. L., Redaelli, D., Tauro, G. WO2023214349A1 *Device for bilateral rehabilitation*.

## Languages

Italian: Native English: Advanced (IELTS 2017) French: Basic (A2)

## Talks & Presentations

2022 Speaker, "Human-computer and human-machine interfaces: designing interaction for all", Chamber of Commerce of Como-Lecco

2022 Speaker, XI National Workshop of NeuroInformatics

2021 Research presentation at KUKA Deutschland GmbH

Lecco, October 17, 2026

Authorized processing of personal data pursuant to Legislative Decree 196/03.
