LinkedIn GitHub Scholar Portfolio GrabCAD

Design researcher and Head of Product of Rehabilia Technologies, with 5+ years of user research at CNR-STIIMA. I own studies from protocol to findings: I plan usability tests, interviews and questionnaires, run them with clinicians, patients and users with disabilities, analyse the data and turn it into journey maps, product recommendations, reports and papers. I use Claude and Claude Code daily to draft, analyse and structure documents.

Work Experience

Head of Product (Co-Founder), Rehabilia Technologies s.r.l., Milan
May 2023 – Present

- Lead customer discovery: interviews with clinicians, patients and partners, synthesised into problem statements, journey maps and requirements.
- Run ongoing field research with clinics and education centres on their pain points and needs, the tools they use, and how they make spending and purchasing decisions.
- Plan and run usability tests: PhiCube reached SUS 85.8/100 with 19 children and is in two ongoing multicentric studies with 134 patients.
- Turn findings into product recommendations and roadmap priorities, and present them to clinicians, partners and support programmes (EIT Health, DOHE EdTech accelerator).

`Interviews • Usability Testing • Journey Mapping • Synthesis • Presentations`

R&D Product Engineer, STIIMA, Lecco
Feb 2021 – Present

- Designed study protocols for usability, acceptability and user-experience evaluations in clinics and labs, from study design to data collection.
- Ran studies with 16 blind participants (OmniTrack) and with children with cerebral palsy (Giocabile, pilot study in the *Italian Journal of Pediatrics*).
- Analysed questionnaire and interaction data in Python (pandas, Jupyter) and reported findings in papers, reports and presentations for clinical and research teams.
- Designed the PhiCube user interface with Italian clinics (Fit4MedRob), mapping system states and interactions so clinical teams could follow them.

`Study Design • Usability Testing • Questionnaires (SUS) • Python • Reporting`

Selected Projects

GIT_1
GIT_2
GIT_3

OmniTrack: IoT-based Multimodal Navigation System /Frontiers

- Designed the experience and its audio and haptic feedback, tested with 16 blind participants.
- Designed OmniAnalytics, a data dashboard for researchers: session browsing, time-series charts, trajectory playback and traceable data-correction flows.

`UX • Prototyping • User Testing • Dashboard Design • Python • Sensors`

WEB

PhiCube: reconfigurable bilateral robotic device for neurorehabilitation /Frontiers

- Took a modular rehabilitation device from user research and prototypes to clinical use.
- Validated with 19 children (SUS 85.8/100); 134 patients in two on-going multicentric studies.

`UX • Interaction Design • Prototyping • Usability • Patent`

Education

2023–27 **PhD, Mechanics and Advanced Engineering Sciences** *Bologna University, IT*

PhD Candidate, expected 2027. Topic: IoT-based Multimodal Navigation System – OmniTrack

- Research Mobility, Utrecht University, NLD: Sensory navigation and experimental psychology.
- Research Mobility, Toyo University, JP: Feedback algorithm and behaviour analysis.

2017–20 **MSc, Design & Engineering** *Politecnico di Milano, IT*

Topic: UX development of an ultrasonic dental device: from concept to validation: WashB

- Research Mobility, Chiba University, JP: UX research studies for Fujitsu and Panasonic.

2012–15 **BSc, Industrial Design** *Florence University, IT*

Topics: Foundation in research methodologies, development, and critical thinking.

Skills

Research	Interviews, usability testing, questionnaires (SUS), study protocols, journey mapping
Analysis	Synthesis of qualitative and quantitative data, Python (pandas, Jupyter), Excel
Docs	Reports, papers, presentations, LaTeX, Figma, Adobe CC, Claude, Claude Code

Courses & Certifications

2026 **Claude 101 Badge — Claude Code Badge — Claude** *Anthropic, Online*

2023 **Sketching with Hardware: Prototyping Tangible AI** *LMU Munich, DE*

2022 **Experimental Interaction Design** *Tallinn University, EE*

Selected Publication

2024 Consales, A., . . . , Tauro, G., . . . **Inclusivity is child's play: pilot study on usability, acceptability and user experience of a sensory-motor PC game for children with cerebral palsy (GiocAbile).** *Italian Journal of Pediatrics*. Link
