Giovanni Tauro

Industrial Designer | 3D CAD, Prototyping & Testing

Bari-Lecco, Italy +39 3279437161 giovanni.taurodi@gmail.com
LinkedIn GitHub Scholar Portfolio GrabCAD

Industrial designer (BSc Industrial Design, MSc Design & Engineering) with 5+ years taking physical products from sketch to tested prototype at CNR-STIIMA and as Head of Product of Rehabilia Technologies. I model parts and assemblies in SolidWorks and Fusion 360, prototype, test and iterate with engineers and suppliers, often remotely. Sport runs through my work, from Adidas sportswear to extreme-sports reverse engineering. Co-inventor of a patented rehabilitation device.

Work Experience

R&D Product Engineer, STIIMA, Lecco
Feb 2021 – Present

- Translated user and clinical needs into product concepts and functional prototypes for rehabilitation and assistive devices, from sketches to tested hardware.
- Modelled parts, assemblies and technical drawings in SolidWorks and Fusion 360; built prototypes with 3D printing, choosing materials and processes by batch size, cost and constraints.
- Ran usability and technical tests, iterated designs on feedback and performance data, and documented design intent in CE-oriented technical files and manuals.
- Defined requirements with clinicians and deployed PhiCube devices in Italian clinics (Fit4MedRob); designed parametric 3D-printed accessories for children with cerebral palsy (Giocabile).

`SolidWorks • Fusion 360 • Assemblies • Drawings • 3D Printing • DfM • Testing`

Head of Product (Co-Founder), Rehabilia Technologies s.r.l., Milan
May 2023 – Present

- Lead product development from concept to validation, setting requirements, priorities and milestones with engineering, design and clinical stakeholders.
- Coordinate third-party suppliers to resolve issues, track progress and meet project goals.
- Validate product decisions with testing and study data: PhiCube reached SUS 85.8/100 with 19 children and is in two ongoing multicentric studies with 134 patients.

`Project Management • Roadmaps • Suppliers • Usability Testing • Asana`

Product Designer, Sportswear, Adidas, Remote
Oct 2020 – Jan 2021

- Developed sportswear concepts from trend, competitor and user research; defined on-brand materials and colours (Pantone); produced Blender renders and a Unity AR experience.

`Concept Design • Trend Research • CMF • Sketching • Blender • AR`

3D Scanning & Reverse Engineering (Freelance), Florence
Jan 2016 – Sep 2017, collaboration with DIMA3D

- Ran reverse-engineering workflows for extreme-sports, automotive and medtech clients, turning 3D scans into validated parametric CAD models ready for production.

`3D Scanning • Reverse Engineering • Geomagic • SolidWorks • Manufacturing Prep`

Selected Projects

PhiCube: reconfigurable bilateral robotic device for neurorehabilitation /Frontiers

WEB

- Co-designed a modular device from user research to mechanical design, assembly and clinical use.
- Validated with 19 children (SUS 85.8/100); 134 patients in two on-going multicentric studies.

`CAD` • `Mechanical Design` • `Prototyping` • `Assembly` • `Patent`

RehaBalloon: Interactive Platform

GIT

- Built a working low-cost rehabilitation prototype in 24 hours (LMU Munich hardware challenge), integrating pressure sensing, visual feedback and embedded electronics.

`Rapid Prototyping` • `Sensors` • `Embedded Electronics` • `C++`

Education

2023–27 **PhD, Mechanics and Advanced Engineering Sciences** *Bologna University, IT*

PhD Candidate, expected March 2027. Topic: IoT-based Multimodal Navigation – OmniTrack

- Research Mobility, Utrecht University, NLD: Sensory navigation and experimental psychology.
- Research Mobility, Toyo University, JP: Feedback algorithm and behaviour analysis.

2017–20 **MSc, Design & Engineering** *Politecnico di Milano, IT*

Topic: UX development of an ultrasonic dental device: from concept to validation: WashB

- Research Mobility, Chiba University, JP: UX research studies for Fujitsu and Panasonic.

2012–15 **BSc, Industrial Design** *Florence University, IT*

Topics: Foundation in research methodologies, development, and critical thinking.

Skills

CAD SolidWorks, Fusion 360, OnShape, Geomagic, Abaqus, Blender, Adobe CC

Build Assemblies, technical drawings, 3D printing (FDM), 3D scanning, materials, DfM, testing

Process User research, sketching, CMF, requirements, suppliers, technical documentation

Courses

2023 **Sketching with Hardware: Prototyping Tangible AI** *LMU Munich, DE*

Patent

2023 Malosio, M., Nicora, M. L., Redaelli, D., Tauro, G. WO2023214349A1 *Device for bilateral rehabilitation*.

Languages

Italian: Native English: Advanced (IELTS 2017) French: Basic (A2)

Interests

Longboarding Mountain hiking Travelling
